

# EnvisaLink 4

## Quick-Start Manual

**Power Draw: 70mA**

**NOTE: For Honeywell users it is important that you create your EyezOn account and activate the module on the account before you connect it to the panel.**

Important: Before installing record the 12 digit MAC ID from the sticker on the module. You will need it during activation.

### ESP Account For Website & Mobile Access

1. Visit [www.eyezon.com](http://www.eyezon.com) from any web-enabled device.
2. If you do not have an account proceed to this link <http://www.eyezon.com/EZMAIN/createaccount.php> and follow the instructions. You will receive a confirmation e-mail with log-in credentials.
3. Log-in to your account.
4. Click the "Activate New Device" link on the left side of the page.
5. Choose EnvisaLink 4 as the device type.
6. When prompted enter the type of panel your EnvisaLink 3 is attached to.
7. When prompted enter the 12-digit MAC ID and name your device.
8. Log-out. Wait 10 minutes. Log back in and your device will be activated.

### To Connect The Module To The Control Panel

1. Disconnect power from the panel.
2. Connect the module to the Keypad bus terminals of the panel. *Caution do not connect the module to the Tip/Ring terminals or you may damage the device.*
3. Connect an 8-conductor (not supplied) UTP cable with an RJ-45 connector to an available router, switch or hub port with a DHCP server available.
4. Restore power to the system.

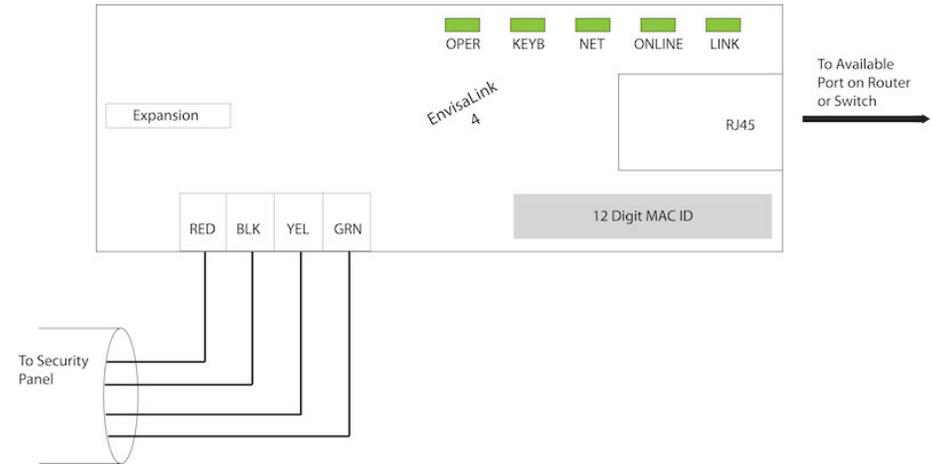

*NOTE: On DSC systems the EnvisaLink 4 automatically enrolls with the security system as a PC5400/DVACS module*

### Panel Programming (Only for Vista panels. Not required for DSC panels)

1. Please find the latest instructions at <http://www.eyezon.com/EZMAIN/evl4honeywell.php>

### EnvisaLink Local Access

1. To access the web interface on the module, from a browser on the same internal network type "envisalink" or the IP address of the module.
2. The default user name is "user" and the default password is "user"
